

RESEARCH NOTE

Credicorp Flex report: contractor payroll timing

By CM Beyer Research Office - Industry research editor - Updated 11 July 2026

Research reference: a report for agencies and project businesses paying contractors before invoices clear.

This .org record is kept for citation and due diligence. It records the product or cash-flow question, the public sources checked, and the boundary between research and customer service.

Contractors often need paying before the client pays the invoice. A director should separate timing pressure from a weaker margin before choosing any finance route.

Check concentration risk. A facility cannot make an unreliable client reliable. Recheck the linked product and public-source pages before relying on the note.

Applications, account servicing and binding customer documents remain on credicorp.co.uk. This page is a source trail, not a sales page.
