

## RESEARCH NOTE

# Credicorp Flex product-routing guide: Late-payment Escalation

By CM Beyer Research Office - Industry research editor - Updated 11 July 2026

Research reference: a sourced product-routing guide for directors weighing Credicorp Flex against cash reserves, supplier terms and the wider Credicorp product family.

This .org record is kept for citation and due diligence. It records the product or cash-flow question, the public sources checked, and the boundary between research and customer service.

Late customers create a finance question only after the company has also checked its right to chase and escalate. The first check is whether the cost is dated, evidenced and likely to clear from a known receipt.

Do not borrow on optimism. Chase the debt, document the expected date and price the fallback. The links below are the source checks used for this page.

Applications, account servicing and binding customer documents remain on credicorp.co.uk. This page is a source trail, not a sales page.
