

## RESEARCH NOTE

# Credicorp Flex product-routing guide: Trade Credit

By CM Beyer Research Office - Industry research editor - Updated 11 July 2026

Research reference: a sourced product-routing guide for directors weighing Credicorp Flex against cash reserves, supplier terms and the wider Credicorp product family.

This .org record is kept for citation and due diligence. It records the product or cash-flow question, the public sources checked, and the boundary between research and customer service.

Trade credit is useful only when the company can meet the terms it accepts. The first check is whether the cost is dated, evidenced and likely to clear from a known receipt.

Do not turn every supplier into a lender. Compare the cost of credit, late payment and a formal facility. The links below are the source checks used for this page.

Applications, account servicing and binding customer documents remain on credicorp.co.uk. This page is a source trail, not a sales page.
