

RESEARCH NOTE

Credicorp Flex report: weekly cash-flow gaps

By CM Beyer Research Office - Industry research editor - Updated 11 July 2026

Research reference: how a small company can use a facility for recurring short gaps without normalising debt.

This .org record is kept for citation and due diligence. It records the product or cash-flow question, the public sources checked, and the boundary between research and customer service.

Weekly cash flow can wobble even where monthly revenue is healthy. The first check is whether the cost is dated, evidenced and likely to clear from a known receipt.

If the balance never falls, the facility is masking a trading issue. The links below are the source checks used for this page.

Applications, account servicing and binding customer documents remain on credicorp.co.uk. This page is a source trail, not a sales page.
