

# Credicorp Slice comparison: Customer Concentration

By CM Beyer Research Office - Industry research editor - Updated 11 July 2026

Research reference: a sourced comparison for directors weighing Credicorp Slice against cash reserves, supplier terms and the wider Credicorp product family.

This .org record is kept for citation and due diligence. It records the product or cash-flow question, the public sources checked, and the boundary between research and customer service.

One large customer can make revenue look strong while cash risk is concentrated in one receipt. The decision is easier when the company writes down the invoice, the date and the repayment source.

Stress-test the plan without the largest receipt before deciding how much to draw. The sources below show the rule, product page or public register behind the point.

Applications, account servicing and binding customer documents remain on credicorp.co.uk. This page is a source trail, not a sales page.
