

## RESEARCH NOTE

# Credicorp Slice plain-English explainer: Open Banking Consent

By CM Beyer Research Office - Industry research editor - Updated 11 July 2026

Research reference: a sourced plain-English explainer for directors weighing Credicorp Slice against cash reserves, supplier terms and the wider Credicorp product family.

This .org record is kept for citation and due diligence. It records the product or cash-flow question, the public sources checked, and the boundary between research and customer service.

Open Banking evidence can make cash-flow checks clearer, but consent and data use still need to be understood. Treat the borrowing as a job to be done, not as extra revenue.

Only use read-only consent that the business understands and can revoke. The citations make the route auditable without copying source text.

Applications, account servicing and binding customer documents remain on credicorp.co.uk. This page is a source trail, not a sales page.
