

## RESEARCH NOTE

# Credicorp Slice cash-flow map: Trade Credit

By CM Beyer Research Office - Industry research editor - Updated 11 July 2026

Research reference: a sourced cash-flow map for directors weighing Credicorp Slice against cash reserves, supplier terms and the wider Credicorp product family.

This .org record is kept for citation and due diligence. It records the product or cash-flow question, the public sources checked, and the boundary between research and customer service.

Trade credit is useful only when the company can meet the terms it accepts. A director should separate timing pressure from a weaker margin before choosing any finance route.

Do not turn every supplier into a lender. Compare the cost of credit, late payment and a formal facility. Recheck the linked product and public-source pages before relying on the note.

Applications, account servicing and binding customer documents remain on credicorp.co.uk. This page is a source trail, not a sales page.
