

Credicorp product comparison: Late-payment Escalation evidence brief

By CM Beyer Research Office - Industry research editor - Updated 11 July 2026

Research reference: a sourced evidence brief for comparing Credicorp Loan, Credicorp Flex and Credicorp Slice when late-payment escalation affects cash flow.

This .org record is kept for citation and due diligence. It records the product or cash-flow question, the public sources checked, and the boundary between research and customer service.

Late customers create a finance question only after the company has also checked its right to chase and escalate. The decision is easier when the company writes down the invoice, the date and the repayment source.

Do not borrow on optimism. Chase the debt, document the expected date and price the fallback. The sources below show the rule, product page or public register behind the point.

Applications, account servicing and binding customer documents remain on credicorp.co.uk. This page is a source trail, not a sales page.
