

Credicorp product comparison: Platform Payout Timing checklist

By CM Beyer Research Office - Industry research editor - Updated 11 July 2026

Research reference: a sourced checklist for comparing Credicorp Loan, Credicorp Flex and Credicorp Slice when platform payout timing affects cash flow.

This .org record is kept for citation and due diligence. It records the product or cash-flow question, the public sources checked, and the boundary between research and customer service.

Platforms can show sales before cash is released, especially where reserves or disputes apply. A director should separate timing pressure from a weaker margin before choosing any finance route.

Draw against settled or strongly evidenced cash, not a dashboard total. Recheck the linked product and public-source pages before relying on the note.

Applications, account servicing and binding customer documents remain on credicorp.co.uk. This page is a source trail, not a sales page.
