

Credicorp product comparison: Platform Payout Timing risk note

By CM Beyer Research Office - Industry research editor - Updated 11 July 2026

Research reference: a sourced risk note for comparing Credicorp Loan, Credicorp Flex and Credicorp Slice when platform payout timing affects cash flow.

This .org record is kept for citation and due diligence. It records the product or cash-flow question, the public sources checked, and the boundary between research and customer service.

Platforms can show sales before cash is released, especially where reserves or disputes apply. Approval is never the point by itself; the useful test is whether the company can repay without creating the next gap.

Draw against settled or strongly evidenced cash, not a dashboard total. The external links keep the page anchored to public material rather than sales copy.

Applications, account servicing and binding customer documents remain on credicorp.co.uk. This page is a source trail, not a sales page.
