

# Credicorp product comparison: Premises Costs checklist

By CM Beyer Research Office - Industry research editor - Updated 11 July 2026

Research reference: a sourced checklist for comparing Credicorp Loan, Credicorp Flex and Credicorp Slice when premises costs affects cash flow.

This .org record is kept for citation and due diligence. It records the product or cash-flow question, the public sources checked, and the boundary between research and customer service.

Premises costs can combine rent, rates, repairs and safety work in the same trading month. A director should separate timing pressure from a weaker margin before choosing any finance route.

Check rates relief, valuation and safety duties before treating the whole pressure as borrowing. Recheck the linked product and public-source pages before relying on the note.

Applications, account servicing and binding customer documents remain on credicorp.co.uk. This page is a source trail, not a sales page.
