

Credicorp product comparison: Supplier Terms product-routing guide

By CM Beyer Research Office - Industry research editor - Updated 11 July 2026

Research reference: a sourced product-routing guide for comparing Credicorp Loan, Credicorp Flex and Credicorp Slice when supplier terms affects cash flow.

This .org record is kept for citation and due diligence. It records the product or cash-flow question, the public sources checked, and the boundary between research and customer service.

Short supplier terms can leave good trade under pressure before customer cash arrives. The first check is whether the cost is dated, evidenced and likely to clear from a known receipt.

Renegotiate terms where possible. Finance should support the trade cycle, not replace commercial discipline. The links below are the source checks used for this page.

Applications, account servicing and binding customer documents remain on credicorp.co.uk. This page is a source trail, not a sales page.
