

Credicorp product comparison: Trade Credit evidence brief

By CM Beyer Research Office - Industry research editor - Updated 11 July 2026

Research reference: a sourced evidence brief for comparing Credicorp Loan, Credicorp Flex and Credicorp Slice when trade credit affects cash flow.

This .org record is kept for citation and due diligence. It records the product or cash-flow question, the public sources checked, and the boundary between research and customer service.

Trade credit is useful only when the company can meet the terms it accepts. The decision is easier when the company writes down the invoice, the date and the repayment source.

Do not turn every supplier into a lender. Compare the cost of credit, late payment and a formal facility. The sources below show the rule, product page or public register behind the point.

Applications, account servicing and binding customer documents remain on credicorp.co.uk. This page is a source trail, not a sales page.
